

Larisa Kampe

Web Developer | UI/UX Designer | Frontend Developer
Belgrade, Serbia

Creative and detail-oriented web developer with a strong foundation in HTML, CSS, JavaScript, and React. Blending technical development skills with a background in graphic design and UI/UX, I bring a unique hybrid perspective to building responsive, user-centered web experiences. Open to remote roles and relocation.

Professional Experience

Leo Burnett — Graphic Designer

January 2021 – Present | Belgrade, Serbia

Designed marketing assets, web visuals, and campaign materials.
Collaborated with developers on digital assets and UI designs.
Worked on branding and user interface concepts across internal and client-based projects.

Freelance Projects — Web & UI/UX Designer

2022 – Present

Designed and developed small websites and landing pages using HTML/CSS/JS.
Built custom components with React and styled them using Tailwind and Sass.
Delivered UI wireframes and high-fidelity mockups in Figma for clients.

Technical Skills

Languages & Frameworks:
